Special Wins

Double Diamond **Wins**
Earn the top award when three *Double Diamond* symbols land on the payline.
If one or two *Double Diamond* symbols land on the payline, these symbols match any other symbols on the payline.

Winning outcomes with exactly one *Double Diamond* symbol pay **2x** the regular win amount.
Winning outcomes with exactly two *Double Diamond* symbols pay **4x** the regular win amount.

A result with only *Double Diamond* symbol(s) and blank symbol(s) is not a winning outcome.
A *Double Diamond* symbol can only substitute for a Cherry symbol if there is a Cherry symbol on the payline on another reel.

Any-Bar Wins
A result with a mixture of non-matching Bar symbols is a winning outcome known as an Any-Bar win.

Cherry Wins
Any result with one or more Cherry symbols is a winner.
One Cherry symbol landing on the payline is a one-Cherry winner, regardless of the reel on which the Cherry symbol appears.
Two Cherry symbols landing on the payline is a two-Cherry winner, regardless of the two reels on which these symbols appear.

Additional Information
Expected Payback
In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of plays by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
