

## **FULL GAME RULES**

Every spin, any combination of 4+ matching symbols touching horizontally or vertically will result in a winning combination.

After payout is made all winning combination symbols will explode, allowing the symbols above them to cascade in.

## **MAXIMUM PAYOUT CAP**

There is a maximum win cap of 5,000x your bet on the game. This is applied to an individual round but can include within it all original symbol payouts, cascade multipliers, free spins and boss wheel within the single round.

## **CASCADING MULTIPLIER**

A win multiplier is applied to, and increases with, every cascade. Wins can be very high but are limited to the maximum payout cap.

## **FREE SPINS SYMBOL & FREE SPINS**

During FREE SPINS, every win will increase the cascading multiplier by 1. This cascading multiplier will continue to build with every win and will not reset until the end of the FREE SPINS session.

4 matching free spins symbols awards 12 FREE SPINS.

5 matching free spins symbols awards 14 FREE SPINS.

6 matching free spins symbols awards 18 FREE SPINS.

7+ matching free spins symbols awards 22 FREE SPINS.

FREE SPINS may also be awarded from a spin on the Jackpot Wheel game, upon defeating a boss.

## **BONUS CHEST SYMBOL & BONUS GAME**

Matching a combination of bonus symbols will take a player to a dimension full of bonus chests. A player gets to pick 2-5 chests. The number of chests the player gets to pick is based on how many symbols they activated the bonus game with, shown in the table below. Each chest will reveal a cash value. The player wins the total accumulated value from their picks.

### **SYMBOLS MATCHED**

4	2
5	3
6	4
7+	5

Larger multipliers are available when the player enters the bonus game via a higher number of bonus symbols. Entering the bonus game with an active win multiplier will also increase all bonus values by the multiplier amount.

## SHARD SYMBOL

A matching combination of shards will cause a large explosion on the reels. Any symbols touching the shard symbol adjacently will be destroyed.

Symbols destroyed by a shard explosion will count towards unlocking a boss portal or deal additional damage to a boss during an activate boss battle.

## BOSS FIGHTING FEATURE

There are 5 portals that can be activated by completing or matching the corresponding number of symbols shown on the portal.

Each portal leads to a distinct new realm, home to one of five unique boss monsters.

Defeat the boss by matching symbols to reduce its health. All symbols deal damage (except bonus and free spin symbols). Successfully defeating the boss will award the Jackpot Wheel Feature.

Note: Game progression towards boss features, and within boss features is saved and carried over to the next game, allowing players to continue their progress at a later time. However, game progression is tied to the stake used. This means a player can enter a boss portal by collection symbols from game play with a stake of 1.00, but if they change their stake to 2.00 that game progress will be reset (or resumed to that of their last game played at that stake). After playing with a stake of 2.00, if the player decides to return to the previous stake of 1.00, their prior progress at that stake will be resumed (and their progress at 2.00 saved for later).

## JACKPOT WHEEL FEATURE

Upon defeating a boss this feature will activate. A 5-tier prize wheel consisting of silver, gold, epic and mythical prizes along with FREE SPINS, will present itself in front of the reels.

The player is granted 1 spin on the wheel. The available prizes grow larger in value per boss and are shown below:

	<b>BOSS</b>	<b>SILVER</b>	<b>GOLD</b>
